WASTE MANAGEMENT BRANCH

Dear Nancy!

Yes! I am concerned about hazardous waste being stored near the Rathdrum Prairie. Our water source is beneath us, the aquifer. I am concerned about hazardous wastes and I wish they could all be stored in a proper place in proper containers. I am thankful for the EPA and I hope you can educate those who do not have respect for their environment. Please help us to clean up these deadly dumps. Thank You,

Karen A. Graves

Dear Ms. Graves:

Thank you for your letter of concern over the hazardous waste facility in Rathdrum. Arrcom, Incorporated/Drexler Enterprises is no longer operating at that location. As stated in the public notice, not issuing a Resource Conservation and Recovery Act permit and the termination of interim status will prevent that facility from further treating, storing, and disposing of hazardous waste. The U.S. Environmental Protection Agency (EPA) is working on enforcing responsible clean-up of the remaining wastes.

As we have not received any objections to our plans, we do not intend to hold a public hearing. Please contact us if you have any other comments.

Sincerely,

/s/ Charles E. Findley
